These are the bold and critical questions that Latin America's Turbulent Transition explores, as the authors provocatively argue that although U.S. hegemony in the region is on the wane, the socialist project is also declining. Going beyond simple "two-left" conceptions, the book reveals the true underpinnings of this powerful, transformative and yet also complicated and contradictory process.

*Latin America's Turbulent Transitions - About | Facebook*

With at least half of voters worried about the fairness of the election and the president not conceding if he loses the election, America's once-exceptional democracy increasingly resembles the political landscape in other parts of the world. Latin America's experience with contested transitions and post-electoral uncertainty can provide useful lessons for the United States.
