Eat Real Food!Real Food: What To Eat

If we ate what we were supposed to eat-what traditional people have always eaten-like grass feed beef, real, whole milk, real cheese, real butter, chicken that was allowed to roam and eat what it is supposed to eat, etc....real food raised and treated with respect, then we would all be healthier and happier and the world would be a cleaner, better place for all life forms.

~~Real Food: What to Eat and Why: Planck, Nina, Teicholz~~

Real food is whole food with a minimum of ingredients and no “food-like” additives. It is mostly unprocessed, free of non-food substances, and rich in nutrients and fiber. Real food is not burdened with food additives, like many of those listed in this government database. Human beings have been eating real food for thousands of years.

~~Real Food | Robert Lustig Website~~

“Real food comes in 11 varieties,” says Dr. Sukol. These are fruits, vegetables, beans, whole grains, nuts, seeds, dairy, eggs, meat, fish and poultry. “This is food that nourishes us,” she says. That doesn’t mean that everyone will eat everything on the list.

~~Skip the Fads: Why You Should Eat a Real Food Diet~~

A real food diet is when you eat delicious things like whole milk, butter, cream, farm fresh eggs, warm bread, fresh garden vegetables, whole cuts of meat like steak, lamb chops or bacon & hearty soups made with real homemade broth. Real food has nourished people literally for thousands of years, and is something your ancestors would recognize.

~~How to Start Eating Real Food - Don't Waste the Crumbs~~

Such food is generally meats, fish, eggs, butter--all the foods that people have eaten through history, and have now fallen out of favor.

~~Amazon.com: Customer reviews: Real Food: What to Eat and Why~~

Whole foods such as fruits and vegetables, and some preferably organic, dairy, also preferably organic, whole grains, wild caught fish (which are free of harmful chemicals), organic or grass feed meat (which are free of hormones and antibiotics), organic poultry, legumes, nuts, seeds, unrefined sweeteners (like raw honey and maple syrup), whole grains (like brown rice, 100% whole wheat bread and whole wheat pasta).

~~Real Food Defined | Eat Good 4 Life~~

Real food may help some excel, while others may prefer engineered sports nutrition products. Engineered products are generally customized to provide the right types and amounts of different types of sugars, so they may be more easily tolerated and absorbed compared to regular foods.

~~Real Food Women Can Eat To Fuel a Long Run or Race~~

Eat real food. Rebel against the diet dictocrats. Become a food renegade. Here’s a rule of thumb to get you started: when at the grocery store, ask yourself if your great grandmother would have recognized what you’re putting in your cart as food.

~~Real Food | Food Renegade~~

Walnuts are a solid source of omega-3 fatty acids—the fats that lower the bad-for-you cholesterol (LDL) and raise the good-for-you kind (HDL). Try this: For a healthy on-the-go snack, pack a handful of walnuts with some dried figs and a few anise seeds. (As the ingredients sit together, the anise releases flavor.)

~~The 30 Most Healthy Foods to Eat - A Healthy Food List~~

In lively, personal chapters on produce, dairy, meat, fish, chocolate, and other real foods, Nina explains how ancient foods like beef and butter have been falsely accused, while industrial foods like corn syrup and soybean oil have created a triple epidemic of obesity, diabetes, and heart disease.
