The State of the World's Children: 1994: Amazon.co.uk ...

As the world marks 25 years of the Convention on the Rights of the Child, The State of the World's Children calls for brave and fresh thinking to address age-old problems that still affect the most disadvantaged children. In particular, the report calls for innovation – and for the best and brightest solutions coming from communities to be taken to scale to benefit every child.

State of the World's Children 2014 - Unicef UK

Millions of children are left out of an increasingly connected world. And the online gender gap is growing: Globally there are 12 per cent more men than women online, and the gap is greatest in low-income countries. And as digital technology rapidly evolves, so can the risks children face online – from cyberbullying to misuse of their private information to online sexual abuse and ...

Like all children, those with disabilities have many abilities, but are often excluded from society by discrimination and lack of support, leaving them among the most invisible and vulnerable children in the world. UNICEF's flagship report *The State of the World's Children 2013: Children with Disabilities* brings global attention to the urgent needs of a largely invisible population.

The 1998 "State of the World's Children" report is about the silent emergency of malnutrition. Arising from the combined onslaught of poverty and preventable diseases, it takes an enormous toll on nearly 200 million children under-five every single day, most of them in the developing world. A child's mental and physical development - and even survival - are at risk. In the long-term ...

In commemoration of Mother's Day, Save the Children is publishing its 16th annual State of the World's Mothers report with a special focus on our rapidly urbanizing world and the poorest mothers and children who must struggle to survive despite overall urban progress. Every day, 17,000 children die before reaching their fifth birthday.

State of the World's Mothers 2015: The urban disadvantage ...

This 2019 edition of The State of the World's Children (SOWC) examines the issue of children, food and nutrition, providing a fresh perspective on a rapidly evolving challenge. Despite progress in the past two decades, one third of children under age 5 are malnourished – stunted, wasted or overweight – while two thirds are at risk of malnutrition and hidden hunger because of the poor ...
